DISPOSABLES AT SAINT ASAPH SQUARE

Please follow these guidelines when disposing of articles at Saint Asaph Square:

RECYCLING

- Single-Stream Recycling is in effect. Recyclable materials can be placed in the marked recycle bins and do not need to be separated by type as before.
- Flatten all boxes before discarding in recycle bins.
- Empty and rinse all glass and plastic containers before placing in recycle bins.

TRASH CHUTES AND TRASH CHUTE ROOMS

- All waste disposed of via the trash chutes must be bagged.
- Place only newspapers in the paper containers in the trash chute rooms on each floor. Neatly stack newspapers in the paper carriers in each trash chute room.
- Do not place boxes or oversized items in the trash chute or trash chute room. Please walk them down to the trash room.

GARAGE TRASH ROOMS AND DUMPSTERS

- When disposing of cat litter, please double bag and dispose directly into the dumpster, and not in the trash chute.
- Use the containers outside of Saint Asaph Square or public waste bins to dispose of dog waste.
- Dispose of all liquids before placing in trash chutes or dumpsters.
- Should you have items that you think other residents may want, place them in a box or bag in the trash room next to the dumpster so they may be easily disposed of after a few days.
